

My computer system

Please answer the following questions about the computer system that you will be using to complete the assignments for BCST 119. Computer system information for Mac computers can be found in the apple menu (top left of your screen) under 'About this Mac'. Windows PC users can use the Start button, open Control Panel>System and Maintenance>System>View amount of RAM and processor speed for the required information.

* Required

What's your FIRST name? *

Martha

What's your LAST name *

Raup

Are you using a desktop or a laptop computer (smartphones and tablets won't work) *

Laptop

Are you using a Mac or a PC? *

PC

What operating system does your computer use? *

If you are not using either Mac OS or Windows, please be sure to answer the last question on the form

Windows Vista

What processor does your computer use and what is its rated speed? (example - Intel i3 2.2Ghz) *

Computer system information for Mac computers can be found in the apple menu (top left of your screen) under 'About this Mac'. Windows PC users can use the Start button, open Control Panel>System and Maintenance>System>View amount of RAM and processor speed for the required information.

Intel 2 Duo CPU T850@

How much RAM does your computer have (example - 4GB) *

4GB

What size hard drive(s) do you have, and how much free space do you have on your hard drive (example - 750GB/150GB free) *

293 GB / 35 GB free

If you answered 'other' to the question about your operating system, please tell us more about your computer system

What operating system are you using (example - Mac OS 10.3 Panther) or Linux, etc. and when was your computer manufactured? Be aware that computers more than three years old may not be technically suitable for the assignments, and we may not be able to help with operating system problems if you're not using Mac OS or Windows.

This describes my CURRENT computer, which I will NOT be using for this class. It is full, and slow, and quirky. I have bought two computers this week, and will soon decide - I may keep both: a retina-display 13-inch MacBook Pro (512GB Flash) and a 17-inch 1 terabyte i7 touchsmart HP. I also use an iPhone. I use CS4 (Photoshop and Dreamweaver), but need to upgrade. I have my own website. I need to learn video and audio editing.
