There is a lot of new terminology for many of you who have not taken any of the audio courses. What I would like for you to do in this post is to find one new word from any of the sources I've provided (the hyperlinked videos, webpages, lectures, etc.) that you learned and/or another new word that you wish to know more about. Post your term learned here and the one you have further questions about and any of us can answer at will. (for 2-points)
